

## **All teams will need to provide a score keeper for this event.**

Coaches, please assign a parent or assistant coach to be your designated score keeper for this event. That person will receive a score keepers wrist band which will allow that person to enter the tournament without paying an admission fee. The score keeper's responsibility will be to sit at the scores table during your teams games and keep clock or official book.

### **Home team will keep book and Away team will keep clock.**

Coaches, please assign someone that knows the rules of basketball, has kept score before, and will be the best person to represent your team.

Score keepers should arrive at scores table at the beginning of team warm-ups. They must have their wristband on showing that they are the official score keeper for your team. If a teams score keeper does not show up then the team will take a technical foul before the jump ball. Jam On It will provide an official score keeper at that time.

At coach's check-in you will turn the name and phone number of your teams official score keeper for this event. At that time, they will receive their wrist band. There will only be one wrist band per team. So please have your score keeper keep the wrist band on their wrist all event days. If your team can not provide a score keeper for this event, please let staff know at time of check in. Jam On It will provide a score keeper for your team games.

At coach's check in there will be a score keepers table where your score keeper can ask questions, learn how to use the clock, and see how to fill out official score sheets.

There will be a Jam On It Court Monitor at the courts to assist score keepers before and after games. The Jam On It Court Monitors will collect all score sheets after the game. So please don't take the official score sheet with you.
